Home Games Hill Climb Racing 1.41.1 | Adobe, Apowersoft, Ashampoo, Autodesk, Avast, Corel, Cyberlink, Google, iMyFone, iTop, Movavi, PassFab, Passper, Stardock, Tenorshare, Wargaming, Wondershare February, 3rd 2025-819.2 KB-Freeware Latest Version Hill Climb Racing 1.41.1 | LATEST Review by Jack Taylor Operating System Windows 10 / Windows 11 User Rating Author / Product Fingersoft / External Link Filename Hill Climb Racing Installer.exe MD5 Checksum 13f11b28734a4bdfaa1306659a9bac6f Hill Climb Racing is a fun and addictive racing video game that places great focus on physics and puzzle-solving. The main goal of the game is to drive as fast as possible on a set of increasingly rocky terrain while keeping your vehicle upright and the driver uninjured. To provide a challenge on short and fun tracks, the way to success requires gamers to keep constant attention on their gas and brake pedal, f/w gauge, and the orientation of the driver at all times. Because of the rocky terrain and fun physics that are affecting the driver and vehicle, in mere seconds you can find yourself flipped upside down and dropping to the ground.As you progress through the wide variety of levels that are bundled with Hill Climb Racing for PC, you will quickly encounter large hills and harsh environmental obstacles that will cause you to have a very bumpy ride.But even such obstacles can be conquered using not only perseverance and perfect driving but also with the help of the car upgrade system that can make your experience on the field much easier.Each time you finish the stage, the player is rewarded with special coins that can be used to either upgrade their current vehicle or unlock a brand new one! Vehicles range from realistic to very silly and fun (such as an off-road monocycle), and they all feature unique handling models that will make them completely distinctive once you try them on the field.The visual style of Hill Climb Racing game is very simplistic, and it resembles the time when crude browser-based flash games ruled the casual gaming landscape.While the graphics are far from the modern standard, animations are quite smooth and snappy. While it is true that this game could benefit much from better audio/visual and gameplay polish, it is still worth playing, especially on older PCs and laptops that cannot handle more demanding modern games.How to Play Download & Install Get Hill Climb Racing from the Microsoft Store or other trusted sources like FileHorse. Choose a Vehicle Start with the default jeep and unlock new vehicles as you progress. Select a Track Pick a terrain like Countryside, Desert, or Moon for different challenges. Use Controls Press the right arrow (accelerate) and left arrow (brake/reverse) to control your vehicle. Balance the Vehicle Adjust throttle and braking to avoid flipping over. Collect Coins & Fuel Gather coins to upgrade vehicles and fuel cans to keep going. Upgrade Your Ride Improve engine, suspension, tires, and fuel efficiency for better performance. Watch Out for Obstacles Be careful of steep hills and tricky terrain that can tip your vehicle. Go the Distance Try to travel as far as possible before running out of fuel or crashing. Unlock & Explore Earn coins to unlock new vehicles and maps for more fun challenges! PROSimple and Addictive Gameplay: It features straightforward and easy-to-understand gameplay, making it accessible to players of all ages. The addictive nature of the game keeps players engaged for extended periods.Wide Variety of Vehicles: The game offers a diverse range of vehicles to unlock and upgrade, each with its own unique attributes and handling characteristics. This variety keeps the gameplay fresh and exciting. Upgrades and Customization: Players can earn coins to upgrade their vehicles, improving their performance and allowing for customization. This adds an element of strategy to the game as players can tailor their vehicles to their preferences.Challenging Terrain: The game features a variety of challenging terrains and environments, which keeps the gameplay interesting and presents players with different obstacles to overcome.Leaderboards and Achievements: It includes leaderboards and achievements, which encourage competition among players and provide additional goals to strive for.Free-to-Play: The game is free to download and play, making it accessible to a wide audience. While it offers in-app purchases, they are not necessary to enjoy the game fully.CONSLimited Graphics: It has simple 2D graphics, which may not appeal to players looking for more visually immersive and realistic games.Repetitive Gameplay: Some players may find the gameplay repetitive over time, as the core objective remains the same climbing hills and collecting coins.Limited Story or Narrative: The game lacks a deep storyline or narrative, which may not appeal to players who prefer games with engaging stories or character development.Precision Challenges: Advancing in the game can become increasingly difficult, which may frustrate some players, especially those who are not willing to invest time or money in upgrades. Click and Play instantly!Hill Climb Racing is a physics-based driving game where you control a driver across hilly terrains. Along the way, you will need to collect fuel and coins. The most important of the two is fuel because it will power your car while the game is ongoing. Coins can be used after each round to either upgrade your current vehicle or upgrade to a new one. Whichever car you choose, your controls are limited to a gas and brake pedal. The objective is to balance the two so you can go up or down the hill without crashing.The main goal of Hill Climb Racing is to drive as many miles as you can on extremely steep and bumpy roads. Another obstacle you must overcome is to maintain your gas levels. Should you run out of gas while driving, the game will end. This means the points you accumulated will be void, and you will need to repeat the same level. The same is true when you flip your car and injure the driver.A good technique for saving gas is to slide down steep hills. The momentum you gain from this technique enables your car to run faster without having to press down on the gas. With such high speeds, you should also be mindful when to press the brakes. Holding it down too soon slows you down, while clicking it too late brings you to a sudden stop. The latter can also send you and your car flying, and eventually crashing. After each successful round, you can use the points you collected to upgrade your car.Parts that can be changed are engine, suspension, tires, and four-wheel-drive. You do not need to have an in-depth knowledge of cars to know the functions of these parts. A pop-up window will appear before you can purchase which explains its benefit. For example, you upgrade the suspension, the window will let you know that it improves your cars ability to absorb shocks or sudden bumps. This makes it possible at high speeds and bumps.System RequirementsHill Climb Racing hosts over 27 levels and 28 vehicles. This is already on top of its vast catalog of upgrades for your car. To keep the program light, you will see that the graphics were designed to appear similar to cartoons or clip art. This 2D design helped the program stay below 1 GB. To play this game, you will need to have a computer running Windows 8 or Windows 10. Its developer, Fingersoft, recommends you install this on with Windows 10 version 10240.0 or higher.Hill Climb Racing is a suitable game for gamers that want a game that is easy to follow but extremely challenging. The physics of this game exaggerates its reaction so its important to stay cautious when youre pressing the gas and/or brake. The overstated movements also make up for the use of flat graphics. Overall, you will find this game difficult yet highly rewarding. The LDPlayer tool allows you to run Android video games on PC very easily. This installer downloads its own emulator together with Hill Climb Racing, adapting its controls for keyboard and mouse so you can play it on Windows. No special knowledge is required since the tool automatically installs everything you need to play.Speed along the ground and avoid tipping overIn Hill Climb Racing, you'll play the role of Bill, a young driver with a passion for uphill racing. Your main mission is to drive through various terrains, such as hills, deserts, caves or even the moon, collecting coins along the way. Each terrain presents its own unique challenges that require precise driving skills to overcome obstacles and avoid tipping over. Hit the gas to race forward and keep your eye on the brakes to avoid any surprises. Control the pedals with precision and reach the end of each level in one piece. Advertisement Remove ads and more with TurboUpgrade your vehicles to reach greater distancesCoins collected during the game can be used to upgrade various parts of the vehicles, such as the engine, suspension, tires, and 4WD. These upgrades will be crucial for advancing in the game, as they allow vehicles to handle more difficult terrain and reach greater distances. Similarly, you can also unlock new vehicles with unique characteristics that help it adapt to different types of terrain.Realistic physicsOne of the most outstanding features of Hill Climb Racing is its realistic game physics. Vehicles behave authentically, responding to movement and speed changes. This realistic physics adds an extra level of challenge, as you must constantly adjust your speed and angle to keep your balance on rough terrain and avoid tipping over.If you like Hill Climb Racing and want to enjoy the adventure on PC, download this free version for Windows that will have you hooked for hours driving up and down the hills. Total downloads: 100 million+ across all platforms for the Hill Climb Racing games have surpassed 2 billion, according to the Finnish mobile gaming studio. Hill Climb Racing, its sequel Hill Climb Racing 2, and a Chinese Android version make up the extremely successful IP. The games have a total NET income of more than \$180 million. Hill Climb Racing continues to maintain its charm even after 10 years Hill Climb Racing 2 was released in 2016, and it built on the popularity of its predecessor by incorporating asynchronous multiplayer, character and vehicle customization, and eventually, teams, leagues, and periodic LiveOps events. The game expanded to almost 70 million new users in 2021, with an average of 1.35 million daily users. According to Fingersofts CEO, We first launchedHill Climb Racingin 2012, which makes us quite the veterans in the mobile gaming industry already. However, it seems the charm of Hill Climb Racing shows no signs of fading, and out of the 2 Billion installs more than 1.5 Billion have been for Hill Climb Racing alone. Last year the original Hill Climb Racing gained over 220 million new players, and was played by over 4 million users per day on average.Jaakko Kylmoja, CEO at Fingersoft Image via Fingersoft Hill Climb Racing also has a Chinese Android version that was released in collaboration with MyGamez and has over 500 million downloads. The Hill Climb Racing IP, which crossed 1 billion downloads in 2018, has only increased its pace in the last four years, increasing its installs. Fingersoft has shifted its attention away from organic growth and toward user acquisition in recent years. This year marks the 10th anniversary of Fingersoft and Hill Climb Racing. Hill Climb Racing was created in 2012 by Toni Fingersoots, who also founded Fingersoft. Fingersoft has expanded from a one-man operation to a game studio with over 100 workers. Fingersofts most recent racing game, Boom Karts, was released last year, and the business is working on other projects. Elias Guzm With a degree in History, and later, in Documentation, I have over a decade of experience testing and writing about apps: reviews, guides, articles, news, tricks, and more. They have been countless, especially on Android, an operating system... Antony Peel Joe WainerUpdated 3 years ago Hill Climb Racing 2 is a physics driven racing game that promises players plenty of thrills and spills. Players are faced with a race course full of hills and need to work out exactly how much power to use to make it over the hills without tipping their car over and having to go back to the start. Up Hill StrugglePlayers will need to have plenty of patience in order to work out exactly how much power they need to use in order to make it up each hill. Those who are just starting out playing Hill Climb Racing 2 are likely to find that they spend more time upside down than actually racing and although this can be a bit frustrating, there is a real feeling of satisfaction when the hill is finally mounted. Can You Go the Distance?Anyone who has enjoyed playing the original game and is looking for a fresh challenge should make sure that they check out Hill Climb Racing 2. The addition of the new low gravity mode provides gamers with plenty of extra fun and there are enough tracks and cars to keep most players interested and engaged for at least a few hours. Realistic game physicsLots of achievements to unlockNot many vehicles at the startCan be a bit frustrating at times Hill Climb Racing is a simple yet highly addictive physics-based driving game that has captivated millions of players worldwide. Developed by Fingersoft this game features quirky vehicles, fun environments, and endless hills to conquer. The game challenges players to drive as far as possible while managing fuel, balancing their vehicle, and collecting coins. Hill Climb Racing is a free arcade game with engaging gameplay that makes it an ideal pick-up-and-play experience, with its myriads of levels, vehicles to unlock, and high scores to settle, this game is ideal for casual players while rewarding those who play for achievements. Challenging gameplay with tons of vehicles and contentHill Climb Racingis easy to graspPlayers use gas and brake pedals to control acceleration and balance while navigating uneven terrain. The realistic physics system makes it both challenging and fun, as players must carefully avoid flipping over, running out of fuel, or crashing. As levels progress, obstacles become trickier, requiring skillful control. While the difficulty curve is fair, some later stages can feel frustratingly hard. Players can earn coins to unlock and upgrade vehicles, enhancing speed, fuel efficiency, and grip. With a variety of vehicles, from motorcycles to monster trucks, the game offers diverse driving experiences. There are also various levels and different environments that are ready to challenge players. Moreover, each vehicle handles differently, encouraging experimentation. However, grinding for upgrades can feel tedious, especially as later stages require a significant number of coins. The games cartoonish graphics and bright, colorful environments contribute to its charm. The simple art style works well, ensuring smooth performance on most devices. The car designs are simple but lovable and quirky at the same time. However, the visuals lack variety, and some backgrounds feel repetitive over time. The sound design is minimal, with basic engine noises and background music, but it fits the games lighthearted nature. An addictive and fun-filled arcade racerHill Climb Racing delivers an enjoyable mix of physics-based driving, engaging challenges, and a wide variety of vehicles to unlock. It's simple yet rewarding mechanics make it perfect for quick gaming sessions, though grinding for upgrades can feel repetitive. With its charming art style and endless hills to conquer, it remains a great pick for casual gamers who enjoy lighthearted, skill-based driving challenges. Since its launch in 2012, Hill Climb Racing has been constantly evolving, reinventing the physics-racing genre. In its first year alone, the mobile game reached over 100 million downloads, and todayalone Hill Climb Racing 2and the franchise has soared past a staggering 2.5 billion games. Over the years, were rolled out countless updates, refining gameplay, and adding new levels, vehicles and features ensuring the Hill Climb Racing adventure only gets better. You are in the correct place then. Keep reading this article to get to know how you can Download and install one of the best Racing Game Hill Climb Racing for PC.Most of the apps available on Google play store or iOS Appstore are made exclusively for mobile platforms. But do you know you can still use any of your favorite Android or iOS apps on your laptop even if the official version for PC platform not available? Yes, they do exists a few simple tricks you can use to install Android apps on Windows machine and use them as you use on Android smartphones. Here in this article, we will list down different ways to Download Hill Climb Racing on PC in a step by step guide. So before jumping into it, lets see the technical specifications of Hill Climb Racing.Hill Climb Racing for PC Technical SpecificationsNameHill Climb RacingInstallations1,000,000,000+ Developed byFingersoftHill Climb Racing is on the top of the list of Racing category apps on Google Playstore. It has got really good rating points and reviews. Currently, Hill Climb Racing for Windows has got over 1,000,000,000+ Game installations and 4.2 star average user aggregate rating points. Hill Climb Racing Download for PC Windows 10/8/7 Laptop: Most of the apps these days are developed only for the mobile platform. Games and apps like PUBG, Subway surfers, Snapeeed, Beauty Plus, etc. are available for Android and iOS platforms only. But Android Emulators allow us to use all these apps on PC as well. So even if the official version of Hill Climb Racing for PC not available, you can still use it with the help of Emulators. Here in this article, we are gonna present to you two of the popular Android emulators to use Hill Climb Racing on PC. Hill Climb Racing Download for PC Windows 10/8/7 Method 1: BlueStacks is one of the coolest and widely used Emulator to run Android applications on your Windows PC. BlueStacks software is even available for Mac OS as well. We are going to use BlueStacks in this method to Download and Install Hill Climb Racing for PC Windows 10/8/7 Laptop. Lets start our step by step installation guide. Step 1: Download the BlueStacks 5 software from the below link, if you havent installed it earlier Download BlueStacks for PC Step 2: Installation procedure is quite simple and straight forward. After successful installation, open BlueStacks emulator.Step 3: It may take some time to load the BlueStacks app initially. Once it is opened, you should be able to see the Home screen of BlueStacks. Step 4: Google play store comes pre-installed in BlueStacks. On the home screen, find Playstore and double click on it to open it. Step 5: Now search for the Game you want to install on your PC. In our case search for Hill Climb Racing to install on PC. Step 6: Once you click on the Install button, Hill Climb Racing will be installed automatically on BlueStacks. You can find the Game under list of installed apps in BlueStacks. Now you can just double click on the Game icon in blueStacks and start using Hill Climb Racing Game on your laptop. You can use the Game the same way you use it on your Android or iOS smartphones. If you have an APK file, then there is an option in BlueStacks to Import APK file. You dont need to go to Google Playstore and install the game. However, using the standard method to Install any android applications is recommended.The latest version of BlueStacks comes with a lot of stunning features. BlueStacks 5 is literally 6x faster than the Samsung Galaxy J7 smartphone. So using BlueStacks is the recommended way to install Hill Climb Racing on PC. You need to have a minimum configuration PC to use BlueStacks. Otherwise, you may face loading issues while playing high-end games like PUBG Hill Climb Racing Download for PC Windows 10/8/7 Method 2:Yet another popular Android emulator which is gaining a lot of attention in recent times is MEmu play. It is super flexible, fast and exclusively designed for gaming purposes. Now we will see how to Download Hill Climb Racing for PC Windows 10 or 8 or 7 laptop using MemuPlay. Step 1: Download and Install MemuPlay on your PC. Here is the Download link for you Memu Play Website. Open the official website and download the software. Step 2: Once the emulator is installed, just open it and find Google Playstore Game icon on the home screen of Memuplay. Just double tap on that to open. Step 3: Now search for Hill Climb Racing Game on Google playstore. Find the official Game from Fingersoft developer and click on the Install button. Step 4: Upon successful installation, you can find Hill Climb Racing on the home screen of MEmu Play. MemuPlay is simple and easy to use application. It is very lightweight compared to BlueStacks. As it is designed for Gaming purposes, you can play high-end games like PUBG, Mini Militia, Angry Birds, etc. Hill Climb Racing for PC Conclusion Hill Climb Racing has got enormous popularity with its simple yet effective interface. We have listed down two of the best methods to Install Hill Climb Racing on PC Windows laptop. Both the mentioned emulators are popular to use Apps on PC. You can follow any of these methods to get Hill Climb Racing for Windows 10 PC.We are concluding this article on Hill Climb Racing Download for PC with this. If you have any queries or facing any issues while installing Emulators or Hill Climb Racing for Windows, do let us know through comments. We will be glad to help you out! One of the most addictive and entertaining physics based driving game model And it's free!Meet Newton Bill, the young aspiring uphill racer. He is about to embark on a journey that takes him to where no ride has ever been before. From Ragnarok to a Nuclear Plant, all places are a racing track to Bill. With little respect to the laws of physics, Bill will not rest until he has conquered the highest hills up on the moon! Face the challenges of unique hill climbing environments with many different cars. Gain bonuses from daring tricks and collect coins to upgrade your car and reach even higher distances. Watch out though - Bill's stout neck is not what it used to be when he was a kid! And his good old gasoline crematorium will easily run out of fuel.Features: Offline Play - Play whenever & wherever! 12D2 video gameFor the motorsport, see Hillclimbing.2012 video gameHill Climb RacingDeveloper(s)FingersoftPublisher(s)FingersoftDirector(s)Toni FingersootsComposer(s)David Kol1Filippo VicarelliHarri Karppinen2Platform(s)Android, iOS, Microsoft Windows, Windows PhoneReleaseAndroidWW: September 22, 2012iOSSWW: November 8, 2012Microsoft WindowsWW: October 21, 2013Windows PhoneWW: November 27, 2013Genre(s)RacingMode(s)Single-player, multiplayerHill Climb Racing is a 2012 2D physics-based racing video game released and published by the Finnish studio Fingersoft for Android, iOS, Microsoft Windows, and Windows Phone. It was originally created by Toni Fingersoots, Fingersoft's founder, and it's the brand's best-known and selling game. The player controls a driver named Bill Newton across hilly terrains, collecting coins and diamonds along the way and spending them on vehicular upgrades and vehicles themselves while being watchful of the driver's head and fuel supply.The game received favorable reviews. Critics describe the graphics as rudimentary at best or ugly, and sometimes panned the gameplay as unimpressive, but the original was overlooked when they launched the physics. Further praise went to the simplistic gas and brake control buttons and the freemium monetization model for its passive approach. Its success led to the creation of a sequel, Hill Climb Racing 2, released in 2016, and also in 2019, the Hill Climb Racing franchise became the second Finnish mobile game franchise after Rovio's Angry Birds to a total of 1 billion downloads. Now both Hill Climb Racing and Hill Climb Racing 2 have reached over 2 billion downloads.Screenshots illustrating elevation as the main aspect of the game. Throughout this course, coins are spread in groups, with some of them accompanied by fuel and gems (as shown on the center-right). The top-left portion of the screen comprises the fuel gauge and an inventory of coins and gems. The objective of 'Hill Climb Racing is to drive as far through progressively difficult racing stages as possible while collecting coins,[3] taking advantage of the non-realistic physics[4] and using only two simple controls: the Gas and Brake pedals. While in mid-air, pressing these pedals will instead cause the vehicle to rotate, allowing the player to control the angle with which they land. Fuel is replenished by picking up gas canisters or batteries along the way. The player can perform stunts such as driving the vehicle into the air for a prolonged time or flipping it over to earn more coins, which after the race may be spent on upgrades or to unlock new stages and vehicles (including a monster truck, racing truck, moon lander, dirt bike, tank, and Santa's sleigh).[5] Conditions ending the game are depleting the vehicle's fuel completely and/or breaking the driver's neck.[6;27]Since its inception, Hill Climb Racing has seen updates that add new content. For example, the "Garage" was introduced in a December 2016 update, where players can purchase cars and tune their parts. Gems were also introduced as another currency to the game. Since then, there have been more than 30 cars released and countless stages added. In 2024, Fingersoft added Fingersports where players could race cars in Olympic-like events. There are 31 total routes in the original version of hill climb racing, but modded APKs have 32 routes with one additional route named The Planet". It's the shortest route with a distance of only 600 meters. It is short due to its toughness. But there are 33 vehicles in total in all versions of Hill Climb Racing which are the same.[7]Hill Climb Racing was developed by Toni Fingersoots, a self-taught Finnish programmer who was 29 years old at the time of the game's release. Prior to developing the game, he started writing software at the age of ten. He was intrigued by car racing, wrote the racing game Rally 94, and shared it with his friends. At that time, he named his own hobbyist firm Fingersoft.[9]A decade after his first game, Fingersoots revived the Fingersoft trade name as a professional studio that programmed games for Nokia mobile phones. Fingersoots described he "had at that quite miserably." He since pursued other occupations, all with unfavorable outcomes. One of them was working with Pixonale, a game studio, and spending his money on developing a PlayStation 3 game called Rust Buckaners[6;243 that was ultimately cancelled as the studio wasted its seed money, causing him to accumulate debt. Another was repairing and selling sports cars imported from Japan and the United Kingdom, which also drained his personal savings. Fingersoots returned to and revived Fingersoft once more in late 2011, where as the company's sole worker, he designed a photography application every few days to see whether some of them would turn out to be successful. One of these apps was Cartoon Camera, released in February 2012 and having quickly amassed over ten million downloads. The app's profitability strengthened Fingersoots' confidence, helped him pay off debts, and secured the creation of his next project, Hill Climb Racing.[8;9]Fingersoots said he spent 16 hours a day for a couple of months developing Hill Climb Racing in a compact bedroom before completing the project.[9] The sound assets were crowdsourced, and his friends and acquaintances drew the visuals. As Fingersoft's business manager, Jarkko Paalannen, states, the visuals were intentionally drawn to be "naive and childish", as part of the game's character.[6;243 Bill Newton, the game's protagonist, was drawn as a sketch by Fingersoots' partner Via Turunen. Fingersoots then photographed the sketch with one of the company's earlier camera apps and modified it for the game's inclusion.[6;243 It was released for Android devices on September 22, 2012.[10] Amid the game's success, Fingersoots contacted Teemu Nrhi, a former Pixonale employee, to port the game for iOS.[6;243 That version was released on November 8,11] and the game was later ported to Microsoft Windows on October 21, 2013,[12] and to Windows Phone on November 27.[13]Fingersoft had plans to localize Hill Climb Racing in China. They had already released the original game in that region in July 2014, in collaboration with MyGamez, a Finnish-Chinese game publisher specializing in marketing non-native mobile games to China. Paalannen saw an opportunity to appeal to the Chinese audience by altering the game's theme to match their culture, while keeping the gameplay unchanged. Hill Climb Racing: China Edition was published by MyGamez in February 2015, coinciding with Chinese New Year.[14][15]ReceptionReview scoresPublicationScorePocket Gamer16[Mobi17]10[3]Modjojo4[AwardsPublicationAwardFinnish App Awards2014 App of the Year[17]China MobileBest Sports Game of 2014;[18]Best Innovation of 2015[18]Hill Climb Racing's critical reception was somewhat positive. Modjojo's John Bedford respectively dismissed the graphics and soundtrack as rudimentary and repetitive but found a great deal of satisfaction in mastering the controls and called the game "fervently addictive." [4] SFGate's Peter Hartlaub praised the ability to upgrade vehicles, as he found it to dramatically improve the player's experience and demonstrate the game's "subtle" physics. Even though he found Ski Safari, a similar racing game, to have more sophisticated gameplay and better graphics and be more cartoonishly "fun," he also found Hill Climb Racing more engaging and concluded that the game is "a good example of the importance of mechanics over visuals in [the mobile gaming] market." [5]Pocket Gamer's Harry Slater compared it to Trials and found it to be less "bombastic" and the graphics slightly ugly but praised the simplicity of the gameplay. He called the game unimpressive, but decent in the genre of physics-based racing games and enjoyable.[16] Swedish magazine Mobi's Elias Nordling considered the game's freemium model and noted the progression system as fast enough to not make the in-app purchases tempting. He found the controls simple and the physics difficult, but his main complaint was the fact that when starting any level, the player always starts from the beginning, rather than from the highest achieved level. Elias concluded that obscured the feeling of achieving anything, but he ultimately liked it and found it to be addictive.[3] In the book Finnish Video Games: A History and Catalog, McFarland & Company, ISBN978-0-7064-9962-5, Sharjeel, Asghar (October 16, 2024). Official websiteRetrieved from "the original classic Hill Climb Racing" Race your way uphill in this physics based driving game, playable offline!Meet Bill, the young aspiring uphill racer. He is about to embark on a journey through Climb Canyon that takes him to where no ride has ever been before. With little respect to the laws of physics, Bill will not rest until he has conquered the highest hills up on the moon! Face challenges in the hill climbing environments with a wide variety of cars to choose from. Earn points from daring tricks and collect coins to upgrade your cars and travel further distances. Watch out though - Bill's neck is not what it used to be when he was a kid! And his good old gasoline crematorium will easily run out of fuel.Features:Fresh ContentWe are still actively developing Hill Climb Racing and adding new vehicles, new stages and new content! Unique VehiclesGet behind the wheel of a wide variety of different vehicles. From the iconic Hill Climber to bikes, race cars, trucks and even some outlandish vehicles such as the creepy Carantula! Half car, half tarantula, do you dare drive it?Play OfflineRace offline whenever and wherever you want! Hill Climb Racing is playable completely offline. Play it on a bus, plane or train! Play it anywhere!Wacky StagesClimb Canyon is full of unique challenges and stages for you to overcome with vastly different terrains and hazards. How far can you drive without running out of gas or crashing your vehicle?Unlock and UpgradeTune up and fix your dream vehicle with custom parts, skins and upgrades!Simulated PhysicsWe worked hard on creating a one of a kind in-game physics system where your vehicles will react to the terrain in a unique manner, can you use this to your advantage and conquer the hills? Daily challenges and eventsTackle the daily challenges and events to earn extra rewards! Remember that we're always reading your feedback and are hard at work creating new content and fixing any issues you may find. I used to like this game, but now it's unplayable. After just two hrs you get unskippable ads, sometimes the ad makes it crash. The grind takes much longer, usually within a few hours you had managed to max out the 1st car, not possible now. Then you get extra coins for watching ads, you decline and you get still shown 2 minutes unskippable ads. Stay away from anything by this publisher. 14,500 people found this review helpfulDid you find this helpful? Flag inappropriateShow review historyUsed to be a great time waster, fun to play during breaks at school with my friends (all on our own phones). But now there are that many ads it's actually frustrating, always at the bottom of the screen, after 3 or 4 clicks just switching between screens, after every round and after collecting 1 daily tasks out of 3 (so that means another 2 ads coming). (keeping in mind that I haven't tried no wifi, only switching to data and not allowing the game to have data permissions, I still get ads)782 people found this review helpfulDid you find this helpful?Absolutely terrible map design. The first map is actually fun and as you buy into more map you think this trend will continue. It wont. 4 srazon map is designed just to be infuriating, not difficult just rage inducing. Like you get tripped up by a slab of ice so you have to restart and spend 5 more minutes getting back to that point and you better remember when you do. Like its not an issue of skill just a memory game at that point, and no real difficulty. Truly bad design.775 people found this review helpfulDid you find this helpful?
