We guide you through the process and collaborate with trusted surgeons for seamless care. Learn More We're excited to introduce TearCare, our latest breakthrough in dry eye treatment. This cutting-edge technology is designed to provide personalized care for those struggling with dry eye symptoms. TearCare offers a non-invasive and highly effective solution to help restore comfort and clarity to your vision. Dr. Helen Tzanetakos explains how it works! At Vision Boutique, we combine high-end optical styling with cutting-edge medical care. Our experienced team is here to help you navigate your vision journey—from the first exam to your next favorite pair of glasses. You're not just a patient—you're part of the family. Helping people is our passion. With over 50 years of combined experience, the eye doctors at Vision Boutique deliver more than just exceptional vision correction—they provide comprehensive eye care you can trust. Our optometrists have worked alongside some of the top eye surgeons in Chicago and the Midwest, bringing advanced expertise to every exam. Each doctor is trained and licensed to diagnose and manage a wide range of medical eye conditions that may impact your vision and ocular health. While we're passionate about helping you find stylish glasses and the most comfortable contact lenses, our top priority will always be your eyes. Discover why Vision Boutique is home to some of the most trusted and friendly eye doctors in Chicago, Illinois. Vision Boutique goes above and beyond the call of duty. Dr. Helen explains everything very well and really takes her time to provide a comprehensive exam. Z helped me pick out a great new frame that I absolutely love. I am a customer for life! Peter S. Patient "Dr. Margaret is fantastic! She is patient, informative, friendly, and very knowledgeable. I have been coming to vision boutique for many years and will continue to do so. The doctors are fantastic and the staff is great! Holly A. Patient "I feel confident imposing change on myself. It's a lot more fun progressing than looking back. That's why I need to throw curve balls. Tori M. Patient "This was my first time going to Vision Boutique and they were great! Great selection of eyewear. They have contacts in stock so I was able to get my prescription contacts same day, and they did a great job going through my benefits. The exam was quick, but thorough! Thanks again! Kinga M. If you experience vision problems or if it's been over a year since your last general eye exam, we encourage you to schedule an appointment with Primary Eye Care Associates in Chicago, IL. We welcome patients from Garfield Ridge, Bridgeview, Oak Lawn, Valparaiso, and throughout the area. During your eye exam, our optometrists and team of certified licensed opticians will use digital vision testing instruments to examine the health of your eyes, and check for any eye health concerns, such as dry eye. Our state-of-the-art optometry equipment allows us to prescribe and provide eyeglass and contact lenses. Patients love the wide variety of designer frames available to choose from in our optical boutique. To schedule an eye exam with our optometrists and opticians, fill out our online form or call: (773) 735-6090 Our Chicago office is conveniently located just down the road from Midway Airport. Register for Your Exam Today Hear From Our Patients I had a great experience...I felt cared for and not rushed. The staff is amazing...I wish I knew about this place sooner! View On Google I have been a patient of Primary Eye Care Dr. Steven Chander for ten years. The office environment is clean and pleasant. View On Google Meet Dr. Steven Chander As the clinical director of Primary Eye Care Associates, Dr. Steven Chander combines over two decades of optometry experience with a lifelong passion for helping others. When you visit Dr. Chander, you're visiting an expert. Dr. Chander is board-certified by the National Board of Examiners in Optometry and regularly educates other eye doctors regarding important eye health topics. Dr. Chander also completed a residency at the Chicago Medical Center Department of Ophthalmology. This experience working with leading ophthalmologists gave him the necessary training to enhance his patient's vision with laser eye surgery. In fact, he even authored a book on the topic. Dr. Chander is dedicated to providing exceptional care and a positive experience every time you visit our state-of-the-art office in Chicago, IL. Our optometrist ensures that every aspect of treatment — including materials, procedures, and the office itself — is held to the highest standards to provide patients with the best possible vision care. Our optometrist, Dr. Steven Chander. Consider another alternative to corrective lenses and LASIK... Orthokeratology: Lasting Vision Correction There's No Need to Visit an Ophthalmologist Orthokeratology enhances your vision without surgery. For those seeking an alternative to glasses and LASIK, our doctors can prescribe a special contact lens that reshapes the cornea during sleep. In the morning, you'll experience improved eyesight without wearing prescription eyeglasses or contacts. This remarkable non-surgical treatment is called orthokeratology, which we're proud to offer at our optometry center. Also known as ortho-k and corneal refractive therapy (CRT), orthokeratology can safely and effectively correct the vision of children and adults who suffer from: Myopia Hyperopia Astigmatism Presbyopia You can reap the benefits of treatment by simply wearing ortho-k contacts at night as directed. It's that easy. Learn More About Orthokeratology A Dedicated Dry Eye Center Relief for Red and Irritated Eyes Dry, red, and irritated eyes can be extremely uncomfortable and ruin your day. Dry eye has a variety of causes, but it's typically the result of poor tear composition or reduced tear production. Dr. Chander heads the Chicago Dry Eye Center of Excellence, which focuses on the treatment of dry eyes. He can prescribe and recommend a number of treatments depending on your needs, including: The LipiFlow® Thermal Pulsation System Tear duct plugs Medicated eye drops Nutrition counseling and supplementation During your consultation, we can identify the reason you're suffering from dry eye and then develop a custom treatment plan that will renew, refresh, and revive your eyes. Learn More about Treating Dry Eye We have many methods of relieving dry eye syndrome. "The best eye doctor in Chicago." More 5-Star Reviews Excellent, professional, detailed and efficient are just a few of the words I can use to describe the service that I received...I would totally recommend this Office for any of your eye care needs. View On Google The best eye doctor in Chicago. I recommended him to all my family friends too. The staff is very nice too View On Google Digital Lenses Our optometry practice in Chicago, IL, crafts lenses using digital technology. These thin, lightweight lenses provide significantly better clarity than bulkier traditional lenses. Traditional Lenses Digital Lenses Order Eyeglasses and Contacts Online We Make It Easy! Primary Eye Care Associates has always gone above and beyond to take care of my vision needs. I have been working with Dr. Chandler for 9 years and I am confident I will continue to work with him and his practice. Thank you for all your support throughout this time. View On Google I enjoyed my visit with the clinic and Dr. Chandler. They are very professional and make you feel at home. They also speak both English and Spanish. They have the top technology to check vision and run any tests you need. Overall it's a great eye clinic. View On Google The team at Ideal Family Eye Care, LTD Sylwia Szewczyk, OD & Associates is passionate about providing high-quality eye care to the people of the Jefferson Park neighborhood and Chicago area. Patients of all ages trust Ideal Family Eye Care for comprehensive eye exams, pediatric eye exams, contact lens fitting, fashionable eyewear, unique eye glasses, best optical technology, diabetic eye exams, digital technology in detection of eye diseases and LASIK consultations, as well as exceptional treatment of a variety of eye conditions, including progressive myopia control, astigmatism, presbyopia, dry eyes, cataracts, pink eye, infections, demodex, glaucoma, diabetic retinopathy, age-related macular degeneration, ocular allergies, foreign body removal, eye emergency care and many more. Believing that your eyes are the source of information about your health, our comprehensive vision exams will go beyond 20/20. At Ideal Family Eye Care, we follow the latest technologies in diagnostic equipment including OCT retinal scan tomography, macular pigment density scanner that allows us to provide our patients with the most thorough, comprehensive eye examinations available. We believe that every patient is very unique! Our doctors and staff always take time to listen and to provide the best solutions to your individual vision and eye care needs. We understand that best eye care also means being treated with excellence and compassion. We believe in Holistic preventive medicine offering consulting on healthy eating and proper vitamin supplementation that are based on research and effectiveness. We specialize in Myopia Control — the only FDA approved method to reduce myopia progression in children and teenagers. More connections means better opportunities for your career. Every course, every lab is built to prepare you to be the best doctor of optometry possible. Myopia, also known as nearsightedness, affects 50% of people in the United States. If you're struggling to see clearly, the ICI can prescribe eyeglasses or contact lenses. Managing the progression of myopia may also help prevent cataracts, glaucoma, and retinal detachments.
