The latest version, 11.1 was released in 2019. It is now built on the BW4/HANA 2.0 platform, which is a significant improvement from the earlier versions. So, why should a company like yours consider upgrading and what are your options? [ba_advanced_divider icon="||divij|400" border_color="#0A4875" icon_color="#0A4875" builder_version="4.21.0" module_preset="default" global_colors_info="{}"] [ba_advanced_divider] Version 11.1 is the latest evolution of the SAP BPC product. Developed for the next generation data warehouse platform BW/4HANA, built entirely on the advanced in-memory database, SAP HANA. Standard & Embedded versions are applicable. SAP Analytics Cloud (SAC) is SAP's new tool for Analytics & Planning. A modern user interface facilitates a driver-based and top-down approach to planning, with Custom Widgets available for tailoring. Group Reporting is SAP newest tool for Consolidation in the S4 layer. Pair SAC with BPC for a hybrid approach to planning. Modern user-interface encourages Top-down planning in SAC aligned with Bottom-up budgeting in BPC BPC for Consolidation alongside SAC for Planning Group Reporting for Consolidation with BPC for Planning Match Systems to your needs. [ba_advanced_divider icon="||divij|400" border_color="#0A4875" icon_color="#0A4875" builder_version="4.21.0" module_preset="default" global_colors_info="{}"] [ba_advanced_divider] THE BUSINESS BENEFITS OF UPGRADING Reduced BW data model layers, less data duplication and less loading steps Simplification of back end repositories, a reduced set of HANA optimised objects, easily configurable Modern HTML5 interface, more intuitive look and feel with customisable home screen SAP Analytics Cloud (SAC) is SAP's new tool for Analytics & Planning. A modern user interface facilitates a driver-based and top-down approach to planning, with Custom Widgets available for tailoring. Group Reporting is SAP newest tool for Consolidation in the S4 layer. Deep integration with SAP Analytics Cloud (SAC) to support Reporting, Hybrid Planning and Predictive analytics Out of the box cloud deployment for reduced TCO Mature, latest SAP technology, priority for future feature enhancements [ba_advanced_divider icon="||divij|400" border_color="#0A4875" icon_color="#0A4875" builder_version="4.21.0" module_preset="default" global_colors_info="{}"] [ba_advanced_divider] System and Landscape Review Data Model Analysis Approach Definition Pre-requisites and Tools Plan - Time & Effort Implementation and Testing Strategy Cost-Benefit Assessment Existing versions of SAP BW and BPC Existing database and version Consideration of existing systems and BW content Some elements may benefit from Re-Design. Lift & Shift, Optimise or Re-write (low/medium/high) [ba_advanced_divider icon="||divij|400" border_color="#0A4875" icon_color="#0A4875" builder_version="4.21.0" module_preset="default" global_colors_info="{}"] [ba_advanced_divider] OUR APPROACH TO CONVERSIONS: Takes your existing SAP BW and BPC content through a process that transfers data models and flows to objects compatible with SAP BW/4HANA. Available for the conversion of an SAP BPC 10.1 and BW 7.5 system on a HANA database. Fresh clean build plus transfer of selected data flows including data to a new installation of SAP BW/4HANA and BPC. Available for the conversion of an SAP BPC 10 or 10.1 and BW 7.3 to 7.5 system on any database. Works like a remote conversion but does not include transfer of data flows/data from the existing BW system. Available for the conversion of an SAP BPC 10 or 10.1 and BW 7.0 to 7.5 system on any database. Hi,4. BPC only for windows platform or also in Linux => BPC NW has 2 elements. a) NW ABAP component which can reside on your BI system (either unix or windows) b) .NET component will reside only on windows6. .Net required on server side or client side (if server side then BPC is only in windows platform) ==> .Net has server components residing on windows server and client components residing on user desktop.Hope this helps.Regards,Deepak Kori Hi Shahid,Please visit the below thread for diff. between BPC MS and NWRRegarding the Installation of BPC, go to SAP Service Market Place and download the BPC 7.5 NW Installation Guide which will provide information for your queries.Hope it helps.Regards,Raghu How to find documentation for SAP Business Planning and Consolidation, version for SAP NetWeaver or BW/4HANA?
