I'm just double checking myself but what are all the ways to earn points on Microsoft Rewards? So far, I've compiled a spreadsheet to forecast the amount of points I can earn in 2020. The ways I have listed are as follows: 1.) PC search bonus - 150 a day 2.) Mobile search bonus - 100 a day 3.) Edge search bonus - 20 a day 4.) Daily set - anywhere between 30 to 70 points a day 5.) Streak bonuses - 45 for three day, 75? for seven day I think, and then once you hit 10 days, it's 150 per 10 day streaks right? 6.) Random Quizzes and offerings - probably somewhere around 300-400 points a month 7.) Xbox offerings - probably somewhere around 200 points a month given how often I play. Are there any other ways that I can earn points? I noticed that some people get points from using Microsoft Rewards in VPNsin countries that support the program, and it seems that this method can earn you up to 9000 points after just three days. For those who live in the US or have a phone number from supported countries, they can also redeem their points for gift cards or Xbox Live Gold subscriptions. However, some people have reported having issues with redemption on Desktop. I'm new here and I was wondering what is the best way to get points! I know that bing searches start to add up but what are the other ways?
