Lisbon, the Portuguese capital, has undergone a remarkable transformation over the past decade. Once an overlooked European city, it's now a global hotspot, attracting people from all corners of the world with its laid-back energy and enviable climate. The city's rapid transformation hasn't come without its tensions, but Lisbon undeniably has more to offer visitors (and locals). With its golden light, Atlantic breezes, and cobbled streets lined with new establishments, Lisbon is a cosmopolitan city that still retains many traditional spots. The Monocle Travel Guide series reveals the best places in each city covered, from ideal routes for early-morning runs to the top spots for independent retail. Each guide features detailed design and architecture pages, neighbourhood walks to avoid crowds, and favourite places to eat - from tasty fast food to celebratory feasts. In Lisbon's case, visitors can discover the best bacalhau, pastéis de nata, and ginjinha, as well as museums showcasing everything from horse-drawn carriages to cutting-edge technology. The city's cobbled streets are now home to new businesses that match Lisbon's relaxed and welcoming soul. Both locals and new arrivals have created ventures that offer worldly cuisine, retail, and crafts, breathing new life into traditional Portuguese industries. The Monocle Travel Guide to Lisbon is available now at The Monocle Shop.
