

I'm not a bot

We use cookies and data for: providing and maintaining our services, monitoring disruptions and preventing spam, fraud, and abuse, measuring audience interaction and site statistics to understand how our services are used and improve their quality. If you choose to Accept All, we will also use cookies and data for: developing and improving new services, delivering ads and measuring their effectiveness, showing personalized content based on your settings, and displaying personalized ads based on your preferences. If you choose to Reject All, we will not use cookies for these additional purposes. Non-personalized content is influenced by factors such as the content you're currently viewing, your active search session activity, and your location. Non-personalized ads are influenced by the content you're currently viewing and your general location. Personalized content and ads may include more relevant results and recommendations, as well as ads based on previous activity with this browser, such as past Google searches. If necessary, we also use cookies and data to tailor the experience to be appropriate for specific age groups. Select More Options to view additional information, such as details about managing privacy settings. You can also visit [g.co/privacytools/es](https://www.google.com/privacytools/es) at any time. Creating maps is a human mission that dates back through time; Google Maps, Street View, and Google Earth are among the tools that support this endeavor. For cloud backups, you can easily access your Google Drive files and Google Photos. Looking forward to working together in Google Drive, where we can see each other's strategies. We will use the same tools, such as documents, spreadsheets, and presentations, to collaborate in real-time without having to share multiple versions of a file. Use machine learning to set up validation rules for our responses, like making sure email addresses are in the right format or that numbers fall within a certain range. If you want to share forms with specific people or a wider audience, it's easy to add them to your website or share links on social media. Try Forms for \$12 USD per user per month, committed for 1 year or \$14.40 USD per user per month when billed monthly. Documentos, Hojas de cálculo, Presentaciones y Formularios de Google Creating content is a done deal in Drive. You get 15 GB of secure cloud storage and 2 TB of storage for your team. Shared units for your equipment are also available. You'll have Gmail with secure email and personalized email for your business. Meet up with video conferences and voice calls that can accommodate up to 100 participants or 150 participants for recordings in Drive. We use data and analytics to ensure our Google services are reliable and secure; we measure metrics such as how much data is being used, to optimize service quality. If you choose the "All" option, we'll also track some of this information. Personalized content and ads may include at-bill-suitable results, such as targeted advertising for previous Google search queries like Google Search. We use data and analytics to personalize your experience in Drive, too.
